Concentrate Degreaser

SNM Concentrate Degreaser is a chlorinated version of Innovative Floor Safety Product's most powerful foaming degreaser. Formulated with alkaline cleaners and grease cutting solvents to break up the most stubborn animal fats, grease, oil, and protein based soils, and fortified with chlorine to bleach and whiten hard surfaces, ceramic tile walls, concrete floors, meat cutting tables, grouting, and equipment. SNM Concentrate Degreaser is recommended for use in restaurants, institutional kitchens, food processing plants, and on heavily soiled floors and work areas. This heavy-duty degreaser contains no abrasives, is fast acting, nonflammable, and biodegradable.

APPLICATION & MAINTENANCE

MANUAL CLEANING: Remove and cover all food products. Dilute one part degreaser with 15 to 20 parts hot water. Apply diluted solution with a mop or sprayer. Let the solution stand for approximately five minutes, then scrub the application area with a machine or brush. Pick the solution up with a wet vac or mop and then rinse with hot water.

FOAM APPLICATOR USE: Remove and cover all food products. Heavy encrusted soil should be removed either manually or with pressure-washing equipment. Fill the dispenser reservoir with concentrated degreaser. Attach the supply line to the foam nozzle and then connect the hot water supply line. Apply hot foam liberally to all surfaces that require cleaning. Allow the foam to stand for approximately five minutes. Follow by rinsing the area with hot water using either pressure washing equipment or a hose and spray nozzle.

SOAK TANKS: Dilute degreaser with up to twenty parts water. Submerge parts to be cleaned in the solution and allow them to soak until the soil loosens sufficiently so it can be rinsed away.

SPECIFICATIONS

Active Ingredients	Alkaline detergents, builders, and grease-cutting solvents
pH	13.0 - 14.0
Free Ammonia	None
Free Alkali	<10%
Free Acid	None
Phosphates (Elemental)	0.05%
Abrasives	None
Color	Straw
Odor	Detergent odor
Solubility in Water	100%
Freeze/Thaw Stability	Minimum 3 cycles
Shelf Life	Minimum 1 year at room temperature
Flash Point	>250° F.
Weight Per Gallon	9.3
Biodegradable	Yes
Soil Suspension	Excellent

SAFETY INFORMATION

Health	2
Flammability	0
Reactivity	0
Personal Protection	D

Read Safety Data Sheet thoroughly before using.

CORROSIVE DANGER: Harmful if Swallowed. Causes Chemical Burns.

Contains Sodium Hydroxide CAS#1310-73-2. Avoid contact with skin, eyes, and clothing. Do not ingest. Wear eye protection, gloves and protective clothing when handling or using.

In case of eye contact: Flush thoroughly with water for 15 minutes. Get immediate medical attention. **In case of skin contact:** Wash thoroughly with soap and water. If irritation persists, get medical treatment. **If ingested:** Do not induce vomiting. Get immediate medical attention.
